SEND Information Report 2024-2025

This Special Educational Needs and/or Disability (SEND) Information Report has been compiled using the information required as set out in the Special Educational Needs and/or Disability Code of Practice and Regulations 2014. <u>SEND Broad Areas of Need</u> (Appendix A of this information report provides more information).

The SEND Code of Practice: 0-25 years, details these as:

1. Communication and Interaction

2. Cognition and Learning

4. Sensory and/or Physical Needs

3. Social, Emotional and Mental Health difficulties

General School Details:	
School Name:	Warrington Road Nursery School
School	www.warringtonroadnurseryschool.co.uk
website	
address:	
Type of	Maintained Nursery School staffed by qualified teachers, higher level
school:	teaching assistants and teaching assistants
Description of school:	Average sized nursery school with places for:
	3-4yo provision - 65 children - 130FTE
	2yo provision - 40 children (20 AM 20 PM)
	We offer wrap around care from 8.00-9am and 3.45pm – 6.00pm Purpose built nursery school based within Warrington Road Family Hub. Family Hub services and groups include: on site multisensory room, toddler and baby developmental play groups, baby massage, baby clinic, Speech and language therapy sessions by invite only.

Range of Provision and inclusion information:

Kange of Frovision and inc	
How we identify special	When pupils have identified SEND before they start nursery school,
educational learning needs as a	we work with the professionals who already know them and use the
school and how we seek the	information they already have available to identify what their SEND
views, opinions and voice of	needs will be in our setting. We may organise a transition meeting
pupils and their parents in	with you (parents/carers) and other professionals who know your child
planning to meet them.	well to share information and discuss if we are able to meet your
	child's needs. We would then devise a plan of action to ensure, if they
	will be joining our setting, that a smooth transition happens for your
	child. Extra visits to the nursery for you and your child will be arranged
	so that you can look around the setting and meet the staff.
	• We offer home visits to all children prior to starting nursery. The home
	visit is the starting point for assessment, providing an opportunity for
	staff to gather valuable information, seeing the child in their own
	familiar environment, observing how the child interacts with the
	parent/carer in the home setting, methods of communication and how
	the child responds and interacts with others, giving an initial insight
	into the child's level of development, social interaction skills, play
	interests and any sensory seeking or sensory avoiding behaviours.
	Outside agencies already involved with the family are noted.
	 If you are concerned your child has special educational needs, we will
	meet with you to discuss your concerns. We will investigate further by
	spending time with your child, speaking with their identified key person
	and undertaking detailed observations of your child in a variety of
	nursery situations. We will share with you what we have found out,
	suggest next steps and with your permission, may make additional
	referrals to outside agencies.
	-
	• If your child does not appear to be making age expected progress, we
	will undertake further observations and assessments in school. We
	may also involve other professionals who can help us to identify
	possible barriers to your child's learning. We will involve you at every
	stage.
	We recognise and view behaviour as a form of communication. We
	will always seek to identify what the child is trying to tell us through
	their behaviours and why this may be happening. We will then aim to
	implement the most appropriate help and support.
	Children's views are very important to us. Where a child is able to
	verbalise their views we will always support them to do so. If a child
	has delayed communication, then we will use other methods of
	seeking their views such as observation, visual prompts, Makaton, or
	key person knowledge of the child.
	• Each child has an identified key person who gets to know your child
	extremely well. Your child will know they can go to their key person if
	they require help.
	 Each key person works with one of our qualified teachers and
	SENDCo to plan for and support the needs of your child. We support
	children within and during their 'active learning' and alongside their
	peers.
	 We act as co-regulators supporting children to develop resilience and
	to learn to regulate and manage their own emotions in the most
	effective manner with the aim of children taking part in learning safely
	and respectfully.
	Staff observe children to identify their particular interests and then reapend to these by providing related activities or resources. Children
	respond to these by providing related activities or resources. Children
	are involved in planning for their own learning experiences using a
	variety of communication methods, including visual aids, Makaton
	signs, non-verbal methods of communication and speech and
	language.
	• Children's individual needs are met through quality first teaching and
	differentiated activities and / or specific teaching approaches
	• We ensure that children are appropriately involved at all stages of the
	graduated response, assess/plan/do/review - taking into account
	children's individual levels of ability.

	 We consider ourselves to be child and family centred and therefore as parents/carers you will be fully involved in any decision making about your child's support. When we assess the needs of children with SEND we will always feed back to you what we have seen in school, as well as providing you with opportunities to describe what you see in terms of your child's strengths and perhaps difficulties or behaviours at home. You know your child best so we take this into account and work with you so that we are all helping your child in the same way, ensuring a consistent approach. With your help we develop a good understanding of your child's strengths and difficulties. We will discuss with you how we can best support your child. We will then implement specific strategies to support your child in nursery. We will also suggest and support you in trying these at home too. This helps your child to know what is expected of them at all times. We will write individual support plans with you, detailing the strategies we plan to implement, and identifying appropriate outcomes and next steps taken to help your child's individual targets are reviewed and new ones set if previous targets are achieved. Local Authority Top Up Funding (TUF): If progress continues to be a cause for concern after intervention, then an application may be made to the Local Authority requesting funding to provide the most effective support for the child with the aim of the child making progress towards any targets set. Progress is monitored via the children's support plans. For children with a complex level of need who will require long-term support, a request may be made to the Local Authority for an Education Health and Care Needs assessment. Evidence is collated by nursery from parents, nursery staff and outside agencies. An external, independent panel of professionals which include representatives from school, health, speech therapy et will examine the evidence submitted and make a decision on t
	 You can find out more information about Educational Health Care Plans (EHCPs) on the Halton Local Offer website.
What extra support we bring in to	We are able to access support from the following agencies:
help us meet SEND: specialist	Universal Service including the Health Visiting Team
services, external expertise and how we work together. For	 LA Area SENDCo/EYs team - referrals are required to access support
example health, social care, local	 LA SEND Advisory Team - The advisors specialise in speech,
authority support services and voluntary sector organisations.	language and communication needs, visual impairment and hearing impairment, autism spectrum condition and social communication needs. Referrals are required in order to access this service through the Specialist Teaching Advisory Service.
	 Outreach support from LA specialist schools' provisions. Access to this service comes via the LA SEND Advisory Team.
	 Paediatric Occupational Therapy Service and the Paediatric Physiotherapy Service for pupils who require support for gross / fine motor difficulties, specific exercises or specialist equipment. Access to these services are via referrals to Woodview Child Development Centre only and professionals will only offer support if the child has specific needs within these areas
	 Where a child has a diagnosed neurodevelopmental condition the Neurodevelopmental Nursing Team may be involved with families. Referrals to this service can be made by staff in Nursery School. Specialist training purchased via outside agencies, via Halton's health agencies or from SEND specialists based within the LA. Children and families may access additional support via the Family Hub and Social Care. Where a child has multiple services involved,

How we provide access to a supportive environment; ICT facilities/equipment/ resources/facilities etc.	 we will attend/ hold multi-professional meetings together with parents/carers. The aim of the meeting is to work together and in partnership, to plan for the child's needs, to review progress and to ensure the child's needs are met in the most effective and appropriate way. Information is recorded at the meeting to ensure accountability. Each room has a set of real objects of reference which are used to reinforce understanding, and to support children to communicate their needs to others. These objects are used to depict routines; e.g alongside a simple verbal instruction a cup or plate is shown to a child to indicate it is snack time, soap dispenser to indicate hand wash routine. All staff carry picture/photo/symbol fobs which are used to reinforce understanding. Staff carry other visual resources such as Spot Timers to help children understand transitions, turn taking and activities ending. For children who need them, communicate their needs. Individualised visual timetables are available for specific children requiring support to communicate their needs. Class visual timetables in each classroom. Simple task reminders displayed in areas of provision to assist with key routines; e.g. hand washing routine displayed pictorially in bathroom above children's sinks Specialist equipment borrowed from Outreach schools when required for individuals to support the curriculum Quiet, cosy spaces including a Calm Corner for regulation. Large, enclosed, fully equipped outdoor environment Access to ICT resources – Interactive smartboard. Regular Staff training via INSET and staff meetings and outside courses Additional specific visual aids may include: Now / next boards, used to help children engage in adult directed activity (next) Photographs to support visual learners Labelled classroom environment indoors and outdoors Core Choice Boards <!--</th-->
What strategies/programmes/resources are used to support pupils with autism and social communication difficulties?	 Intervention from speech and language services Delivery of personal speech and language programmes by SENDCo/Key Person/1:1 support (if provided by Communicate or external speech and language therapist); Delivery of small intervention groups to support development of speech and language and social communication; Early Talk Boost trained practitioners and intervention groups including resources for families to take home (if appropriate or at the child's level) Use of visual aids; use of real objects of reference/ photos/pictures/symbols/communication boards, to reinforce understanding and to support children to communicate need and preference, Individualised visual timetables and simple visual task reminders Now / next boards Spot Timers Intensive Interaction Techniques and tracking TEACCH Attention Autism / Bucket Therapy Multi-sensory based curriculum and access to a wide range of equipment which provides sensory feedback, both indoors and outdoors Planned activities which provide feedback via cause and effect action to support around specific targets

What strategies/programmes/resources are available to speech and language difficulties? Strategies to support the development of literacy (reading /writing). Strategies to support the development of numeracy.	 Sensory exploration is available and delivered specifically for the child demonstrating sensory processing differences Use of the Soft Playroom to support movement and physical development All children's communication development screened using the WellComm assessment screening tool Visual supports used by staff (see above) Staff use Makaton signs alongside vocabulary; signs also linked to planning. Trained staff introduce and revise staff knowledge with a 'Sign of the week' Communication Boards where Speech and Language Therapist has advised implementation Speech and language games linked to planning Visual timetable Access to Health Team Support from SENDCo/Leaflets, information for parents Small group support for SLT intervention Speech sound screening tool Signposting to other services or Local Offer7Early Talk Boost trained practitioners and intervention groups Teaching activities are based upon the pre-reading and writing skills outlined within the Early Years Foundation Stage curriculum. Learning programmes are tailored to meet the individual needs of the children, taking into account where the children are at developmentally and what they need to do next in order to make progress; For most children, and at the beginning of their EYs journey, we ensure children access a multi-sensory based curriculum with regular opportunities for physical and sensory exploration and mark making using hands, and feet, as well as other mark making tools. Lots of opportunities to develop listening and attention, and speech and language before beginning phonics Regular phonics teaching and strategies delivered using Little

How we track and assess pupil progress towards the outcomes that we have targeted for pupils (including how we involve pupils and their parents/carers). What we do when provision or interventions need to be extended or increased and how we evaluate their overall effectiveness.	 Seeking additional professional advice/funding to meet the needs of a child where supervision and support goes beyond our ratios/staffing Children's progress is constantly monitored and evaluated, through observations and assessments, to ensure the provision of effective learning programmes for all children; If children do not appear to be making progress, parents/carers are informed, and appropriate targets and/or interventions are agreed. These are regularly reviewed with parents/carers; SEND support plans are also regularly reviewed with parents/carers and appropriate activities agreed; If necessary, support is sought from outside agencies/professionals. Any strategies or recommended advice is incorporated into support
	 plans. Where children continue to make little or no progress, it may be agreed with parents/carers to apply for additional LA funding or an EHCP. If a child has worked with the SEND team at the Local Authority they may have a small step developmental tracker that is used to track children's progress during this time. When children move to our setting, we would continue this to show progress over time.
Strategies/support to develop independent learning.	 Clear routines, with support from adults, enable all children to follow and access all areas of provision; Reduced language, 'Chunking' of activities Backwards chaining Encouraging independence and responsibility with environment e.g. tidy up time cues and visuals Group 'rolling snack' – getting own snack, washing and drying plates Visual prompts, visual timetables support children to understand the daily routines of the nursery; Visual task reminders displayed in areas of provision support children to build independence during routine tasks, such as hand washing, putting on coats The environment is organised in such a way as to allow children to access resources independently. Clear labelling and grouping of resources into areas supports this independence; Continuous provision enables children to lead their own learning with the support of skilled adults. Children are encouraged to plan for their own play and learning. More specific teaching approaches include the use of visual aids and/or Makaton
Support /supervision at unstructured times of the day including personal care arrangements. Extended school provision available; before and after	 Intimate Care and Toileting Policy Key person responsible for personal care. Support at mealtimes. Extended school provision is available at Warrington Road for breakfast and after school Wrap Care.
school, holidays etc. How will we support pupils to be included in activities outside the classroom (including school trips) working alongside their peers who do not have SEND?	 Risk assessments in place to ensure locations for visits are appropriate and fully accessible; Ensure appropriate adult support is available; Specialist resources or equipment provided where appropriate Close liaison with parents/carers and other professionals involved in child's development Provide information about what is available outside the classroom, e.g. timetables of activities provided by local Family Hubs.
Strategies used to reduce anxiety, prevent bullying, promote emotional wellbeing and develop self-esteem including mentoring.	 5 Ways to Well-Being Award to support and foster well being in the setting Thrive training and roll out over the academic year 2024-2025 to support wellbeing and development of all pupils An 'open door' policy operates for all parents/carers;

P	
	 The Key Person approach is in place, supporting every child within the setting; The children, and their families, are met and greeted individually at the start of the sessions; Children are in a key group each day and cared for by staff who know them and their routines and development Consistent routines in place Clear and consistent expectations for pupils
	 Visual timetables / visual task reminders
	 Sensory Integration Exercises planned and implemented for those children demonstrating sensory processing differences
	 We view behaviour as a means of communication and always
	endeavour to investigate the route of the behaviour, what is the child
	communicating to us, why, and how can we meet the child's needs
	Use of restorative practice approach
	Positive and specific praise
	• Parent/carer contact daily and where appropriate Home /School books
	in place.
	Key person nurture time as appropriate
	 Referrals to Link Educational Psychologist group if appropriate
	 Quiet spaces, cosy corners for children to access
What strategies can be put in	We view behaviour as a means of communication.
place to support behaviour	We will always endeavour to investigate the root of the behaviour:
management?	what is the child communicating to us and why
	 how can we meet the child's needs;
	through our response and actions
	 by providing appropriate communication strategies,
	 by providing a nurturing approach, by adulta acting ap ap regulators.
	 by adults acting as co-regulators, and by recognising and recognizing appropriately and engeliable to
	 and by recognising and responding appropriately and specifically to children's sensory processing differences
	 Where required behaviour plans are put in place
	 Advice may be sought from outside agencies
	 Clear consistent boundaries implemented by all staff – and for some
	children restorative practice strategies are used where appropriate
	Positive and specific praise
	SENDCo/Senior staff support
	Advice/support for parents and signposting to other agencies and
	services that may be able to help
	Positive Parenting Leaflets
	 Stay and Play sessions for parent and child each term
	Self-regulation built into curriculum
	 Referrals for Parenting Programmes
	Thrive approach supports us to assess child's needs and put specific
	intervention/support in place for them depending on gaps in development/understanding
	 development/understanding Referral to CDC specialist team for behaviour in some cases
	 Potential for family support through CAF & Children's Centres Calm Corner spaces
	 Introduction of Zones of Regulation to support regulation and
	understanding of simple emotions
How we support pupils in their	The SENDCO fulfils the role of 'Transition co-ordinator' to ensure smooth
transition into our school and	transitions operate within the school;
when they leave us and in	A variety of strategies are used to ensure smooth transitions. These
preparing for adulthood.	include:-
	Home visits
	All About Me information collated with parents
	'New Parents' meetings
	• If necessary, transition meetings are held for individual children. As a
	result of these meetings, a transition plan may be drawn up
	Risk assessments may be completed
	 A programme of visits may be provided and individual 'induction neckages' errorged.
	packages' arranged;

	 Communication passports may be provided for individual children Links with outside agencies, where necessary, such as, SEND Partnership. The nursery has developed close links with local primary schools – Meetings and visits are arranged in the summer term and documentation is shared and transferred to the receiving school.
Access to strategies, resources, programmes, therapists to support occupational therapy/ physiotherapy needs and medical needs.	 Referrals/Intervention from physiotherapy / occupational therapy team Risk assessments / Health Care Plans Access to an Outreach Worker for advice & guidance Assessment and individual programmes Specialist resources/furniture, which are regularly checked and adjusted to meet needs of the child. Delivery of planned intervention programme by appropriate member of setting staff.
Extra support for parents and carers and pupils offered by the school/how parents are involved in their child's education.	 Close liaison with medical staff where required Staff training for managing particular medical needs Access Halton Play Library Individual Support Plan devised in partnership with parents/carers Children's views are very important to us; each child has an identified key person who they meet with and know to go to if they require help 'Open door' policy We hold Stay and Play sessions in the setting – providing a focus to help support parents in supporting their child eg. speech and language The setting will signpost appropriate groups and organisations which
How additional funding for SEND is used within the school with individual pupils.	 are relevant for your family's needs. The setting can support families through a MAP if appropriate. Review completed in partnership with parents/carers Early Talk Boost groups involve parents Nursery schools fund pupils with special needs through their own budget. There is no additional funding for SEND. Nursery school applies for top up funding on individual basis to support children with a high level of additional need. Nursery School can request that the LA complete an assessment of the child's needs which is also known as an Educational Health Care
Arrangements for supporting pupils who are looked after by the local authority and have SEND. Including examples of how pupil premium is used within the school.	 Plan request. This may lead to the child being granted an EHCP which can provide funding for the child's needs in the setting. How this funding is used is discussed as part of the assessment. Nursery staff work with individuals involved with the child – parents, carers, social care EY Pep completed WellComm assessment SENDCO and key person assess child's level of need. Graduated approach is followed.
	 Child accesses appropriate support – intervention in school, SEND support. Nursery may apply for Pupil premium plus for an individual. Pupil premium funding has been used for nurture time, therapeutic support and specific interventions for groups within session. The school's EYPP strategy statement is completed and regularly reviewed. ma Mitchell senco@affns.co.uk
